**Davin Wedel**  
President & Founder

While a student at Tufts University in the 80s, I founded Global Protection to change the dialog surrounding sexual health by normalizing safer sex education and condom use. For 30 years, we've been tinkering with the latest technologies, and innovating new products inspired by customer feedback. Thanks to incredible partners like you, we're inspiring conversations and education across the country in creative ways.

We're excited to work with MMCAP Infuse to provide special pricing for select sexual health products. Global Protection has the capability to provide products and services to the entire national MMCAP Infuse Membership and has been a proud MMCAP Infuse supplier for eight years.

# ONE®

In 2004, Global Protection launched the ONE® brand. ONE represents everything that we've learned about encouraging people to make positive choices about their sexual health. From the products and packaging to our engagement and education programs, ONE® is designed to celebrate individuality and use art and design to encourage individuals to be more open about safer sex.

ONE® condoms and lubricants are a fusion of advanced product design and leading-edge manufacturing technology. On the outside, hundreds of engaging wrapper designs spark conversations about sexual health. And on the inside, we develop the latest condom technologies to increase comfort and pleasure. The ONE® product portfolio includes the most unique designs and proprietary product formulas available in the world today.

It's all part of our mission to reinvent sexual health.

# BUTT STUFF APPROVED™

## ONE® and MyONE® Custom Fit® are FDA-cleared for anal use!

The FDA authorization was granted based on a clinical trial conducted by the Rollins School of Public Health at Emory University. The study found ONE® and MyONE® Custom Fit® condoms used during anal sex failed less than 1% of the time.

The condom styles that were tested in the clinical trial and that have the new anal use indication are our Vanish®, Super Sensitive™, Classic Select™, and MyONE® Custom Fit® styles. As of February 2022, the FDA approved these condoms as the first brands ever to be labeled safe and effective for anal sex. Previously condoms have only officially been approved for vaginal sex.
