ONE® at Home

As an undergraduate at Tufts University in Boston in '87, I founded Global Protection to make condoms as socially acceptable as toothpaste and as second nature as wearing a seatbelt. For over 30 years, we've been developing new products and launching safer sex educational programs. We love being part of your community's journey through festivals, events, and outreach programs!

This year, we're excited about recent product developments, including the addition of Trustex® Exam Gloves (non-latex). We are expanding our harm reduction offerings, added Harmony® latex & polyisoprene oral dams, and continue to be the exclusive distributor of the FC2® internal condoms to the U.S. public sector. We're launching a new college ambassador program under our ONE® brand, and have new materials for educators on the importance of proper condom fit.

We're excited about the months ahead, and continuing to work with amazing people like you to educate & empower healthy choices.

Regards,

Davin Wedel,
Founder & CEO of Global Protection

ONE®

In 2004, Global Protection launched the ONE® brand. ONE represents everything that we've learned about encouraging people to make positive choices about their sexual health. From the products and packaging to our engagement and education programs, ONE is designed to celebrate individuality and use art and design to encourage individuals to be more open about safer sex.

ONE® condoms and lubricants are a fusion of advanced product design and leading-edge manufacturing technology. On the outside, hundreds of engaging wrapper designs spark conversations about sexual health. And on the inside, we develop the latest condom technologies to increase comfort and pleasure. The ONE® product portfolio includes the most unique designs and proprietary product formulas available in the world today.

It's all part of our mission to reinvent sexual health. Together We Are One®

BUTT STUFF APPROVED™

FIRST CONDOM BRAND FDA APPROVED FOR ANAL SEX!

For the first time ever, the FDA authorized a condom to be used for anal sex, not just vaginal sex. "I think most people would be surprised to know that condoms were not approved for anal sex. With this new designation from the FDA, people will have more confidence using condoms for anal sex," said Global Protection CEO Davin Wedel.

The FDA authorization was granted based on a clinical trial conducted by the Rollins School of Public Health at Emory University in partnership with Global Protection. The study found ONE® and MyONE® Custom Fit™ condoms used during anal sex failed less than 1% of the time, far exceeding FDA's less than 5% failure rate required for vaginal sex.

The condom styles that were tested in the clinical trial are Vanish®, Super Sensitive™, Classic Select™ and MyONE® Custom Fit™. As of February 2022, the FDA approved these condoms as the first condoms ever to be labeled safe and effective for anal sex. Learn more at globalprotection.com.
