Since our start on a college campus in 1987, the Global Protection team has been unwavering in its commitment to our founding mission: To innovate, educate and engage in order to make safer sex second nature. Our customers are our partners in this effort.

Working closely with non-profits to advance sexual health advocacy is my personal passion. Over nearly four decades, we've had the opportunity to partner with thousands of organizations across the country and around the world to help solve public health challenges in support of causes like yours.

This year, we're excited to continue advancing our history of innovative sexual health products and programs. Stay tuned for new additions to our signature ONE® condoms and lubricants along with more options in our groundbreaking MyONE® Custom Fit® lineup.

We're also excited about our new location. Our headquarters in Lynn, just ten miles up the coast from our Boston Seaport office, greatly expand our warehousing and production facilities to better serve the needs of our customers. Lynn has a rich industrial heritage and we're honored to be part of its future. We have every intention of making Lynn the condom capital of the USA!

Thank you for being a part of our journey and letting us be a part of yours. We look forward to partnering with you to educate and engage your community about safer sex.

**Davin Wedel,**  
Founder & CEO of Global Protection

We commissioned a muralist from Amsterdam named Mr. June for the front of our building in our new expanded space in Lynn, Massachusetts.

# BUTT STUFF APPROVED™

In 2004, Global Protection launched the ONE® brand. ONE® represents everything that we've learned about encouraging people to make positive choices about their sexual health. From the products and packaging to our engagement and education programs, ONE® is designed to celebrate individuality and use art and design to encourage individuals to be more open about safer sex.

ONE® condoms and lubricants are a fusion of advanced product design and leading-edge manufacturing technology. On the outside, hundreds of engaging wrapper designs spark conversations about sexual health. And on the inside, we develop the latest condom technologies to increase comfort and pleasure. The ONE® product portfolio includes the most unique designs and proprietary product formulas available in the world today.

It's all part of our mission to reinvent sexual health.

**Together We Are One®**

## **ONE® and MyONE® Custom Fit® are FDA-cleared for anal use!**

The FDA authorization was granted based on a clinical trial conducted by the Rollins School of Public Health at Emory University. The study found ONE® and MyONE® Custom Fit® condoms used during anal sex failed less than 1% of the time.

The condom styles that were tested in the clinical trial and that have the new anal use indication are our Vanish®, Super Sensitive™, Classic Select™, and MyONE® Custom Fit® styles. As of February 2022, the FDA approved these condoms as the first brands ever to be labeled safe and effective for anal sex. Previously condoms have only officially been approved for vaginal sex. # Educate About Proper Condom Fit

Do your clients ever tell you condoms don't fit them? Is condom fit one of the most common concerns you hear? We have a solution for that!

While many individuals can use standard or XL-sized condoms, others face challenges such as slippage, discomfort, bunching, or loss of erection due to improper sizing. When condoms fit correctly, feel good, and function as intended, individuals are more likely to use them consistently.

Our MyONE® Custom Fit® brand offers 52 condom sizes, including options both snugger and larger than any other brand. Our MyONE® Quick Sampler packs feature nine of these sizes, making it easier than ever to introduce the concept of custom-fit condoms in public health programs.

Check out our samplers, poster, measuring tools, and educational cards to help you educate about proper condom fit.

## Condom Fit Poster

An easy, fun, and informative way to talk about proper condom fit! The poster discusses common condom fit issues like slippage, squeezing, bunching, and erection loss. Poster measures 19" x 26"
